DELHI WORLD PUBLIC SCHOOLS

Delhi World Public Schools are a contemporary chain of schools under the aegis of the Delhi World Public Foundation initiated by Delhi Public School Alumni which includes luminaries like Salman Khurshid – Former External Affairs Minister, Government of India; Montek Singh Ahluwalia – Former Deputy Chairman, Planning Commission; Chintamani Rao – Former Vice Chairman, Times Broadcasting Company; Dr. Rakshanda Jalil, Historian, Sharmila Tagore, Actor and several others.

With about a 100 schools running or in the making, the foundation spearheads a mission to achieve excellence in education through cutting edge learning tools combined with the human touch and the unique Guru-Shishya (Teacher-Pupil) bond of our ethos.

VISION

Delhi World Public Schools are committed to provide state-of-the-art education, incorporating Indian values and World culture, aiming to create global citizens as torch bearers of a dynamic and harmonious world.

MISSION

Delhi World Public Schools aim to instil in each child a sense of inquisitiveness and exploration, and an urge for experimentation, observation and synthesis. We endeavour to free the learning process from the confines of the four walls of classrooms and take it further to activity workshops, resource centres, laboratories and library, teaching less for learning more. Every child is encouraged to inculcate the values of citizenry; a commitment to good health, high values and sensitivity to the environment. We strive to guide and support each child in their journey from primary to senior school and prepare them for the journey beyond school

Chairperson's Thoughts

Our Indian standard of education is excellent. Our students are amongst the best in the world. They score high on marks - to the extent of securing even 100% in English! But can we truly say that our children are well rounded? Not just masters of marks but also fluent in languages, communication and general knowledge? Have they developed team spirit and qualities of leadership? Do they see beyond the confines of their school and home to recognize inequalities around? Can they hold their own in public debates or present themselves admirably in an interview? There is so much of the past that was character forming which our schools have discarded or forgotten in the pursuit of High Grades. Institutions like National Cadet Corps and Scouts and Guides; Institutions like the Social Service League; the Arts, Crafts, Culture and Philosophies of our country that our children are unfamiliar with. We are losing many aspect of our history which must be gathered with care before it is all scattered in the vicissitudes of time.

The DELHI WORLD PUBLIC FOUNDATION, pioneered by a group of graduates from the DPS Schools who have since made a mark in the world, seek to take education to a higher level; an overall holistic, comprehensive and focussed initiative to produce all-rounded human beings. What we emphasize is the road we are taking to get there – perhaps the road less travelled; but a road which we hope is filled with adventure, with curiosity, with wonder.

This is a challenge that we at the Delhi World Public Foundation have taken up in earnest. The wealth of knowledge and experience of our Life Trustees, Term Trustees, Advisory Council and Members of the Education & Resource Council is being harnessed to open our students' eyes to all the wonderful things that the world has to offer. To appreciate art as well as to create it, to establish their own individual identity through creativity. To not only carve a Printing Block or make Handmade Paper out of rags and waste but also to carry in further by printing on the paper and then on to adding value by making greeting cards stationery, decorative boxes, etc.

Modules are being created for our children to engage in Self Care, Social Service, Animal Welfare and Environment protection. To make them appreciate, understand and anticipate the dire necessity of valuing our depleting wildlife, threatened environment and ecology. To bring to them firsthand knowledge and information of new energy saving techniques and technology – Solar Energy, Rainwater Harvesting and just simple Vermi composting from household waste. They are encouraged to take time off from cramming for exams and tests to take part in Drama, Elocution, Music and all those varied expressions of impulsive creativity. As to express themselves on canvas of in stone or even just create a bonsai plant or a simple Ikebana.

In simple words we want them to be children, leading an exciting child's life and not be forced to become premature adults! Please join us and be part of our new adventure full of wonder and care.

**Intelligence plus character
That is the goal of true education**

*Usha
Kiran Gitte*

President-Vivekanand Youth Welfare Society

President's Message

We have completed two academic years of Delhi World Public School, Parli Vajjanth. We have made all efforts to provide world class educational facilities and conducive environment for children to learn and prosper. It gives me lot of satisfaction when parents meet us and confess about the improvements they have noticed in their children. Under the aegis of Delhi World Foundation, our school has moved from strength to strength.

It gives me immense pleasure to announce the launch of "Kalpana Chawla Girls Hostel" and "Einstein Boys Hostel" in the school campus which will reduce the travelling efforts of children in far away areas. We have provided state of the art hostel facilities. Moreover, we have provided accommodation facilities for about 30 teachers in the school campus. Therefore, Delhi World Public School campus is growing through the active contribution and under the close supervision of our teachers. In true sense, every student and every teacher is a part of DWPS family.

We have recruited senior and experienced teachers keeping in view that our first batch of Class X will be appearing for CBSE Board exams this year. The students will get rich academic inputs as well as expert guidance for competitive examinations that they will take on after Class X.

At the same time, we have given due considerations for the CO-curricular activities and arts, music, literature and sports. We are also starting first batch of National Cadet Corps this year. Every child will get ample opportunity to show and develop his or her talent in area of liking.

Overall, we promise to deliver world class educational services to our students so that they become competent to take on any kind of challenges in their future careers.

Wishing you all the best !!

for tomorrow belongs to those
who prepare for it today

MR. VITTHAL KISAN TUPE

Principal's Desk

Dear Parents & Students,

"A progressive futuristic school is a place in which all children grow, not just in size, not just in knowledge; but in curiosity, courage, confidence, independence, resourcefulness, resilience, patience, competence, accountability and wisdom." - John Holt

In a short span of 3 years DWPS, PARLI, governed by Vivekanand Youth Welfare and Education Society has emerged as a trendsetter, a model of excellence in 21st century value based education, nurturing and empowering curious Dpsites to emerge as a competent, compassionate and responsible global citizenry.

For preparing Dwpsites to take care of future challenges of the competitive world. We modify and upgrade teaching methodologies and syllabus to produce an exciting and vibrant curriculum along with the aids of modern technology design to challenge ideas and expectations and engage students in a love of learning. For challenging their grey cells as well as to sharpen their debating skills, we organize regular interactions in the classroom across the levels. We ask then probing questions seeking their critical opinions while offering them freedom to think: think absolute, think lateral, think divergent and think convergent. The kind of thinking skills our students need today are those which help them to adapt to a world accelerated change - a space age, a computer society.

We make sure that our students are drawn into research and enquiry through various formats of learning so as to create stimulating ambience on the campus, helping every learner to evolve as holistic human being - emotionally stable, intellectually vibrant, physically robust and socially committed.

I came across a beautiful passage in an article by Carolyn Warner, which states the rule of school and the principal in the most touching manner and I share it with you a little alteration. She calls it, "A dream for children":

Give me your moody children, your casual children, your stubborn children.

Give me your attention-seeking children, your hyperactive children.

Give me your children who need love as badly as they need learning.

Give them all to me in whatever form they are, and the people within these walls will help.

We will give you the doctors and engineers and the scientists and the lawyers and the ministers and the teachers and the businessmen of tomorrow.

We will give you the hope and dream of tomorrow.

We will give you the future

we strive for our progress
and your child's perfection

DELHI WORLD PUBLIC SCHOOL

The Modern Gurukul

The ancient Indian Gurukul system is a time tested, organised and secular education system. We owe many scholars, the decimal system, roots of astronomy and much more to this system.

The Guru as per the Gurukul system is more than a teacher. The Guru is an awakener, who treats the student as one's own and imparts knowledge impartially. The students live in close proximity with the teacher, wherein the Guru gets the opportunity to look after the mental, spiritual and physical wellness of the student.

The beauty and simplicity of the Gurukul system is knit together by an intricate science. Hence, at Tula's, we chose to equip the Gurukul system with modern methods and infrastructure to create the modern gurukul

Personal focus into the well-being and development of each student is inculcated. Attention is paid to every detail from a strictly vegetarian diet to addressing individual needs.

For no student should ever be left alone, and that's how we achieve

Collective Excellence

Central Board Of Secondary Education

The CBSE course structure is based on reasoning and analytical abilities, and not memorising facts. This helps the students understand the subject better and gain objective knowledge. The syllabus is framed with the child's developmental and learning needs in mind. This aids the all-round development and individual growth of the student.

No wonder the CBSE students fare well in the competitive exams. As the attributes of this curriculum is well within the interests of Tula's education, hence we chose to incorporate the CBSE curriculum into our school.

INFRASTRUCTURE

Delhi World Public School Parli Vajnath is equipped with first rate infrastructure that complements the noble aim of its foundation. The ultra-modern campus comes with fully airconditioned classrooms and an elegant design that speaks for itself.

Our architects have gone out of their way to ensure that the building suits the needs of young minds, drawing on years of research to create an environment most conducive for over-all growth.

Our range of facilities, detailed separately, match global standards in education.

OUR CURATORS - TEACHERS AND THEIR TRAINING

We place paramount importance on selection of teachers with best ability, potential, and proven track record. We realise that teachers are the spine of a successful school, and our selection procedures thus are elaborate and well-researched.

Our teachers have past experience of leading schools such as DPS, MLZS, British School etc. On an average our teachers have more than 10 years of teaching experience. We also look to maintain the most congenial classroom environment striving for a teacher student ratio of 1:15.

We also closely monitor the work of our teachers and review their performance regularly through teacher appraisals to assess their knowledge and skills, their attitude and behaviour in the classroom as well as in the community.

We seek regular 360o feedback from our students and parents about our teachers. All staff members of the school take part in a Continuous Professional Development (CPD) and adequate resources are allocated to develop their skills.

Smart Classrooms

In order to best facilitate learning, we offer smart classrooms that use audio-visual methods of engaging students with their lessons.

Our smart classes are equipped with latest innovative technology including LCD projectors and Interactive Digital board systems along with computers. Sections of curriculum are diligently imparted through smart class rooms that are networked to large repositories of digital content.

Mathematics Lab

The Maths Lab allows students to explore mathematical concepts via games, puzzles and other modern teaching aids. In addition to teaching in the lab, students are encouraged to use lab facilities on their own to inculcate in them a spirit of discovery and invention.

Computer Lab & Language Lab

The Computer Lab is well resourced with high-speed central servers and the latest educational software (with adequate security and safety features). Every student has access to a terminal in the lab. We are also keen to teach children about personal safety in the use of social media to ensure they are fully aware of the health and social risks involved. Parents can access the up-to-date progress of their children in each subject via the school's website.

Our Language Laboratory is fitted with latest multimedia equipment and audio-visual aids.

Students are able to practise speaking a new language, record their work and take part in interactive sessions to improve their language skills while enjoying the experience.

Robotics Lab

The School has also built a Robotics lab for students to learn first-hand the wonders of science and also train students to build and control robots. Fostering scientific thinking and reasoning, the lab helps students to go beyond the textbook and promotes learning-by-doing.

Science Labs

We have fully stocked advanced labs for Physics, Chemistry and Biology. The lab classes are held under the close supervision of teachers and lab assistants.

Our science labs provide students an opportunity to experiment and reinforce their learnings adding a much needed practical approach.

Social Science Lab

Social Science Laboratory has equipment, apparatus and materials required for each subject, such as maps, globes, ethnic artefacts, etc. to promote practical as well as theoretical learning. It provides a work space for students and teachers for interactive activities such as role playing, visualisation, competing/cooperating, problem solving or focus group discussions.

TRANSPORT

Our School has outsourced a fleet of new Air-conditioned buses. Safety on the road is given paramount importance. The students embark and disembark within the school campus under the vigilance of transport managers and teaching staff. An escort teacher and helping staff accompanies the children in the bus. All the buses are equipped with a medical kit for emergency. There is easily accessible GPS Tracking available for all the busses and a message is delivered to the parents 5 minutes before their child is about to reach bus stop. In case of a delay due to unforeseen circumstances, parents are immediately informed through SMS.

We provide school transport to many nearby areas of Parli Vaijnath, throughout Parli, Ambajogai, Gangakhed and Sonpeth, etc.

व्यये कृते वर्धते एव नित्यं

The APJ Abdul Kalam Library

"Books are a uniquely portable magic."

Stephen King, On Writing: A Memoir of the Craft

At DWPS, we consider our Library to be the richest place in our campus, where all the treasures are hidden. It's the effort we put in building it up, drawing in advice from experts in each of the subjects and equipping it with the best material. It will be your child's prized possession, for they will hold onto their library cards dearly. Utmost care has been taken that the student gets access to the right material and just not any kind of detrimental literature.

We understand the role a library plays in a student's life. Hence we have taken care to fill it up with all the necessary books and the reference books that could cater to a child's curiosity. The huge, well stocked library, every student's favourite place can lure them further into the magic of books, we have provided comfortable seating space so that reading is always a pleasure. We conspire to plant and nurture in each student the love of reading that will last for a lifetime.

The modern infrastructure, the huge collection of books, the comfortable seating our library needs to be experienced.

गुरु more than a teacher

a nourisher • a liberator • a giver • a limitless creator

There is no 'one right method' of teaching. There cannot be one size that fits all.

Different students have different needs. Its our duty to cater to them. We cannot find one method which can suffice. Hence, we have equipped our staff with a variety of talents. There are teachers and mentors, from all age-groups, proficient in different subjects and different teaching methods.

We have taken care to gather a highly talented pool who bring in all the elements of the teaching system together. Though different in their approach to teaching, they do have a few things in common like their love for teaching. Each teacher is well trained, qualified, experienced and above all - loves to teach. Many of them are able mentors and counsellors, who carry an exemplary track record.

to keep the **body** in
good health is a **duty**
else we shall not be
able to keep our mind
strong and clear

**Yoga is not a religion, it is a science,
science of well-being, science of youthfulness,
science of integrating mind, body and soul**

In a healthy body resides a healthy mind. This science bestowed upon us by our ancestors which caters to both is the science of Yoga.

Yoga was bound to be an integral part of DWPS education, not only because we are the Modern Gurukul, but also because of the positive impact it has on students. Yoga helps in relaxing the mind and strengthening the body. Yoga helps in better concentration, sharpens the brain, reduces anxiety, increases immunity, reduces tardiness and increases confidence. During their formative years, students undergo many changes physiological, psychological and sociological. through these challenges a child develops a personality.

Yoga helps the student with a firm base and helps them to develop a balanced personality. Along with this, is the strength and guidance provided by DWPS. The outcome is a Healthy Persona radiant by itself.

SPORTS

Sports is an important and integral part of Tula's education. A necessary part of the curriculum as a rule and all the students get a chance to learn and enjoy sports. Students get a chance to play a variety of sports with high quality facilities all of which are set to international standards. You never know where your child might find his or her calling.

"It is imperative for school going children to have access to sports and games. Not only does it empower youth and promote higher self-esteem, it also motivates students and enables them to earn better grades. Numerous physical benefits include maintaining a healthy weight, preventing chronic diseases and learning the skills necessary to maintain a healthy lifestyle"

So, no sooner does education begins with sports, the better it is for the child's mental and physical wellness. Tula's provides a unique opportunity for the student athlete to be immersed into an environment of elite athletic training. Our programs enable students to have a great school experience continuing to train like a professional with world class infrastructure, approved by International sports boards, while making sure the grades are on track for your child to enter Top colleges in the country

HORSE RIDING

We are proud to offer one of the best horse-riding arenas. Hence, do not be surprised to witness national level horse riding competitions at DWPS.

The horses are specially brought from different regions and are well maintained. The horse stables are stationed within the campus and there is a team to take care of their health, grooming, hygiene and medical treatment.

Before any student gets ready to mount a horse, the professional coaches take all the necessary precautions and adorn them with protective gear. All the training happens under professional supervision. This is mandatory. The fully operational arena dedicated for horse riding is made with a shock absorption technique to allow minimal injuries in case of a fall.

CRICKET

Cricket is a vital part of childhood for many students. We offer a state of the art cricket stadium with a seating capacity of 500 people. Your child will be trained by professional cricket coaches with an athlete centred approach where the needs of each student comes first.

Delhi World Public School, Parli Vajinath feels immense pride in our valuable association with YSCE - The Yuvraj Singh Center of Excellence .YSCE is the culmination of many years of toil and sweat from a passionate, dedicated cricketer who has become one of India's cricketing icons. Cricket has given Yuvraj Singh everything he has today and with YSCE, Yuvraj is looking to give something back to the game. Through YSCE, Yuvraj, hopes to give young, budding cricketers the platform to follow and realize their dreams. Through innovative training techniques, national and international exposure and focus, individual development, the Yuvraj Singh Center of Excellence provides an unparalleled opportunity to passionate youngsters to excel on the cricket pitch.

YSCE provides the best fleet of coaches handpicked personally by Yuvraj Singh.YSCE offers state of the art facilities and equipments for a great learning experience. DWPS and YSCE together shall leave no stone unturned in preparing a potential cricketer. We try to cover every cricketing skill as well as physical and mental development which will help the children to conquer any challenge in life. YSCE also has a robust assessment system through which parents get quarterly video analysis and performance reports of their ward.

Our aim is not only to build a competitive sportsman but also an able and successful human being and a leader.

billiards

Billiards was evolved from a lawn game sometime during the 15th century, probably in France. It has been played in ancient times by kings and nobles. It is an indoor game which has a wooden table covered with green cloth. Billiards was the first sport to have world championship. It is one of the safest sports in the world.

The students are encouraged to play billiards under the supervision of a trained coach. They develop the skills for tournaments held in different parts of the world.

badminton

Badminton is an amazing game. It is not only a physically challenging sport but also involves mental application and enhances racket skills. All students at DWPS have the opportunity to play badminton during the course of each school year and also to be a part of the badminton club.

The club covers - Basic technique, Match play, Rules and Etiquette and Tactical play within doubles and singles. Adhering to the Tula's standard of providing world-class infrastructure we offer you our indoor Badminton Court, with features including - Shock Absorption, Optimal Vertical Deformation, Optimal Traction Coefficient and Environment Friendliness.

skating

It is not everybody's cup of tea. It requires balance of both body and mind. It gives incentive to be free and choose your path. It adds grace and elegance to our movements. Hence DWPS student would emerge as those who would carry themselves with aplomb in society

volleyball

Not just indoor games! We specialize in outdoor games too!! The school has two volley ball courts to cater to the needs of both boys and girls. The students love volley ball as it tests their endurance level all the time. Inter-house tournaments are conducted on regular intervals which trains them to participate confidently in Inter-school and District level tournaments.

taekwondo

Taekwondo is a Korean martial art with a heavy emphasis on kicks. Taekwondo is characterized by its emphasis on head-height kicks, jumping and spinning kicks, and fast kicking techniques. Quick reaction, concentration, equilibrium, breath control, correct body mass and terrific speed makes one a champion in this sport. Our dedicated coach imparts the students to learn this martial art and perfect it.

table tennis

Indoor games are not as popular with students as outdoor games. To develop student's interest towards indoor games we offer a specific sports arena that houses an area dedicated to table tennis. The TT tables are procured from the best sports houses of India. The table tennis arena has special sports flooring approved by sports commission for better and safe play. Being an indoor game, the sports arena has been arranged with ample amount of light, making it suitable for playing in the nights as well.

music & dance

Music and Dance are the art forms in which the heart manifests itself. Especially, during school time, they become a form of communication and means of expression. Students make much deeper connections with Music and Dance than adults do. Music encourages creativity, stimulates the brain connections, develops learning skills and makes the transition easier.

Owing to the positive impact of music and dance in the development of a child, we have decided to make it an integral part of DWPS's education. At the DWPS music academy, well experienced teachers guide and train the students on instruments like Guitar, Congo, Violin, Sitar, Keyboard, Drums, Harmonium, Tabla etc. There is vocal training as well. Students also get an opportunity to be trained in Indian and Western dance forms.

being creative is fun and important for your soul

The Delhi World Public Schools system is aimed at developing confident, well rounded students with capabilities and the spirit to reach for the stars. The curriculum provides a rich variety of co-curricular activities, which we consider not extra but an ESSENTIAL part of a child's education.

These include Indian Dance, Western Dance, Indian Music, Western Music, Yoga, Martial Arts, Drama, Debating, Elocution, Art, Abacus, Aero Modelling, Cotton Spinning and Weaving, Pottery, Handmade Paper Making, Carpentry, amongst many others.

Our students take part in social activities and learn about our diverse communities and about universal tolerance. Examples include sharing knowledge with children who are differently abled or are from minority communities, or tutoring peers who are academically weaker.

Art and Craft

In addition to drawing and painting, students explore a wide range of crafts including pottery, handmade paper, recycling of paper, cotton spinning, weaving and textiles. Our arts and crafts facilities are well re-sourced based on Indian traditions and culture.

Students are educated to learn and appreciate art and take pride and pleasure in colours and creativity.

Co-curricular

At DWPS, we believe that there is more to education than the classroom sessions. Hence, our indulgence in the co-curricular activities, incorporated into the students regular curriculum for holistic development of your child. The student is presented with many opportunities to participate and explore one's own capacities.

As ardent supporters of Howard Gardner's theory of 'Multiple Intelligences' we encourage every student to participate as much as they can in all the activities and events. The theory highlights that intelligence is not just a single intellectual capacity. Instead, he suggested, there are multiple kinds of intelligence that people can possess: Visual, Linguistic, Logical, Physical, Musical, Interpersonal, Intrapersonal and Naturalistic.

And by actively participating, the students would get a chance to discover their own competencies

fun beyond academics

DWPS strives to create a positive environment wherein all students are challenged and inspired to achieve one's true potential. Academics and Activities are the back bone of DWPS and as a result of the above we have been ranked amongst the top boarding schools of Marathwada.

There is lot more than academics that develop a child's personality. To bring out the innate talents of each and every child at DWPS we have a host of clubs and societies that cater to the varied interests of the child.

BOOKWORM Book Reading Club

"Reading is to the mind what exercise is to the body" - with this motto in mind the club members proudly walk around the campus with their prized possessions - Harry Potter, Life of Pi, What Young India Wants, Malgudi Days, The DaVinci code and many more.

The bookworms meet prominent authors like Chetan Bhagat, Ruskin Bond, Ranjith Lal and Bhaavna Arora to get inspired.

POTTER'S WHEEL Clay Modeling Club

Clay modeling may seem to be a simple process but when really practiced leads to shapes unexpected and even crooked. Yet clay modeling allows one to think and give shape to one's imaginations. The members slog for hours on end with patience to bring out their creative images born in their minds. The hands may be dirty but the models are a beauty.

RAGA ROCKS

Music Club

At DWPS, music is not regarded as a standalone subject but is incorporated in the curriculum itself and is an integral part of every student's life. The club offers the students a wide array of opportunities in both western and classical music. Kids rock the campus with guitar, congo, violin, sitar, keyboard, drums, harmonium, tabla and sitar.

THE CIRCUIT

Electronics Club

The club constructs simple to complex projects patiently during the activity period. They include Burglar Alarm, Automatic School Bell, Battery Low Indicator, Mosquito Repellent, Cash Box Guard, LED Sequential Running Light etc. ROBOTICS is the most exciting area of electronics where kids make projects like Cell phone Detector, Obstacle Avoiding Robot etc.

KHANA KHAZANA

Cookery Club

Food, in our own tradition, is something holy. It's not about nutrients and calories. It's about sharing. It's about honesty. It's about identity. In Khana Khazana our students experiment and evolve different recipes. Some tasty and some not so tasty. Yet the experiment goes on bringing smiles on others' faces. This is the most loved club by boys.

VIBGYOR

Art & Craft Club

Students are exposed to different mediums of art and craft for exploring their creative side. Portrait painting, sketching, crafts, Madhubani painting, and sculpture building are some of the activities that our students enjoy doing and learning in the art and craft club.

SHUTTERBUG

Photography Club

To view the world through a camera gives totally a different perspective to life. The simple leaves become an art in itself and the humming birds seem to sing their own songs. Creativity, imagination and passion are the key that sets one different from the crowd. No two images are the same and it is for the viewer to interpret the captured image though the artist may have a different opinion.

FLAMINGO

Dance Club

Dance is a performing art which consists of purposefully selected sequences of body movement. The movement has aesthetic and symbolic value. The members dance to their heart's content for various music forms. Classical or semi-classical, Eastern or western, the body sways to the music like a Flamingo. The aim is to feel free and stretch beyond one's limits.

GULMOHAR

Nature Club

Gardening is an art by itself. The members work diligently to see that the plants and trees in the campus are well protected so that the others become aware of their environment. Ultimately the goal of the club is to protect our Mother nature.

entertainment

DWPS takes pride in presenting its state of the art auditorium, located at the heart of the campus. Equipped with the latest technology the auditorium was constructed paying attention to every minute detail. A perfect example of modern Architecture and is, certainly one of its kind in the entire Marathwada.

The Auditorium is a multi-use concert hall with wonderful acoustics and a warm and welcoming ambience. It is a perfect venue for non-academic and academic events

such as musical, dance and theatre performances, as well as lectures, conferences, videos respectively.

With a seating capacity of over 500 people, the Auditorium is centrally air-conditioned. It contains state-of-the-art lighting and a full range of audio-visual equipment. It houses a Dolby surround sound system and has a very powerful and specially imported projector for multiple uses ranging from showing slides to watching motivational videos and high resolution movies.

multi-culturalism

The Gurkul system is not only well organised but also secular and so is Tula's. Knowledge is imparted to each and every student without any bias.

Hence, you would witness Tula's to be the grounds of a multi-cultural world. Our students do not come from just one region. We have students from various origins, regions and cultures. But together, they are all Tula's prodigies and live in great camaraderie. There is diversity, but no differences. This helps your child with greater exposure, to understand cultures and people, develop tolerance and grow into global citizens.

trips and excursions

The traditional method of teaching students only in a class room environment is yesterday's story. At DWPS we understand that the students need to explore and experience what they are being taught.

The need to learn by practical implication and to understand by observation. Excursions are arranged for students as per the curriculum demands. While children put all their interest and curiosity into the exploration, they would always be under the teacher's watchful eye. The disciplinarian staff is highly disciplined and well trained to take all the necessary precautions. The parents are well informed about their child's whereabouts throughout such exercises.

vegetarian food leaves a deep impression on our health and on our nature

The best doctors of the world would fail if the diet is not right. Especially in the formative years, a proper diet has a huge impact on the individual development. After looking at all the diet charts and diet methods, we chose to follow our ancestors and practice a vegetarian diet.

A vegetarian diet provides excellent nutrition for all stages of childhood, from birth through adolescence. There is no nutrient necessary for optimal human functioning which cannot be obtained from plant food. This is an attempt to encourage a lifestyle that is simple yet profound and environment friendly. The menu has been set by expert dieticians and chefs with the children's health and development in mind. The dining hall and the kitchen are in line with the strict quality control to match DWPS standards.

The school provides 7 meals in a day with a different menu each day. Milk and fruits are added in the menu. Proper care is taken to provide the students with a balanced & calorific diet. Members of the staff also eat with the students to supervise meals.

**Care and affection is not a business where you give and you get.
It is a beautiful feeling for someone where you like to give, even if you don't get.**

A high standard of hygiene and cleanliness is maintained in the dining hall and in the modern well equipped kitchen of the mess.

The furniture of the mess is designed in a way so as to provide comfort to the students with proper sitting posture. In the center of the mess there is a fountain, which gives soothing effect to the whole ambience. There are separate washrooms for boys and girls in the mess. Drinking water facility with both hot and cold water is also available in the mess.

DWPS has an aesthetically designed Multi Cuisine mess offering a wide variety of International Cuisines. The capacity of mess is up to 250 students. The school mess is designed keeping the British art style in mind. A PA system along with an entertainment system is also set up in mess where children can watch news, matches, and movies and enjoy their meals.

The school mess serves wholesome and delicious vegetarian meals planned by qualified nutritionists and expert dieticians. The meal plan is designed keeping in mind growing children and their nutritional requirements.

**Care and affection is not a business where you give and you get.
It is a beautiful feeling for someone where you like to give, even if you don't get.**

What a tough decision to send your little ones to a boarding school's, however, I can assure, it makes a big difference in the academic life and career thereafter. Again, it is equally difficult to look for the best school keeping in mind that we are parents as well. At DWPS, students are totally prepared for best universities across the globe. Here your child develops a sense of responsibility and discipline. We ensured that are students are globally compatible, be it in academics, sports or extracurricular activities.

Your decision to put your child in DWPS is welcomed and a step in the right direction.

Drawing on years of experience and deeper understanding of school systems DWPS has developed a learning atmosphere that caters to the emotional needs of the students without neglect. Every child gets individual attention, as they would receive at home. We have developed special expertise in working with students to help them meet their fullest potential and achieve academic and personal enrichment. Students are stationed in well ventilated, spacious rooms. We believe the Himalayan breeze is therapeutic in itself. The supplies and provisions are provided individually and not on a sharing basis.

away from home..
..but home

health comes first

At DWPS we believe that a healthy mind resides in a healthy body. We take care that the students are in the best of health to achieve the success they desire. Hence, health is of priority to us. We keep a close eye on the students' mental and physical well-being. Their diet plans are framed by expert dieticians and the staff takes proper care to look after the right diet and proper intake of food.

Regular medical camps are organised in the campus and students go through regular medical check-ups to ensure everything is alright. DWPS houses an infirmary exclusively for our students, with the availability of a nurse round the clock.

To provide the students with best medical support we have tied up with super-speciality hospitals. Proficient doctors are on call and visit the campus regularly. Boys and Girls have separate nursing rooms.

In case of an emergency, we have an ambulance stationed within the campus apart from the nurse who would be administering the first aid. An inhouse Isolation Room with Quarantine facilities form a integral part of the infirmary.

Be assured, the student would never suffer negligence or lack of medical support.
